Minimum deliverables will include:

1. Test Plan
2. Test Scripts / Scenarios
3. Test Data Selection
4. User Acceptance Testing Results
5. Defect creation, tracking and reporting

MANDATORY REQUIREMENTS OF PERSONNEL

Prioritized mandatory requirements:

1. A minimum of 5 years of experience as a Quality Assurance Tester or Test Designer/Engineer working on IT projects
2. A minimum of 1 year of experience working on projects that used Agile/Scrum software development approach
3. Communication skills with attention to details a must
4. Demonstrated ability to work effectively and collaboratively across department, divisions, functions, cultures and levels
5. Ability to use strategic critical thinking and analytical problem-solving skills
6. Demonstrated ability to plan and conduct User Acceptance Testing
7. Ability to function as a core member of a program or project team
8. Develops automated solutions to expedite test
9. Creates and maintain performance test scenarios
10. Executes scripts for automated regression or performance test
11. Keeps the Project Manager aware of challenges or costs that could impact the delivery of test results
12. Creates and maintain test cases, define data, and review test scripts prepared by test analyst
13. Verifies the validity of a solution from an end-to-end and end-user perspective
14. Works with management team to identify risks related to requirements that may contain ambiguous statements
15. Has the ability to transform customer requirements into workable test scenarios at the functional and/or technical levels and to translate functional requirements into technical terms relevant to the package application to coordinate and assist with the detailed technical design tasks
16. Records defects and issues in accordance with the project's defect and issue management plans

PREFERRED REQUIREMENTS

- Previous Chevron experience
- Working knowledge of ETC's R&D project management, R&D portfolio management and Tech. Department business planning process.
- Familiar with other Chevron tools (GIL)

SOFTWARE APPLICATIONS AND TECHNICAL DATA

Proficient in Microsoft Office 2013+ products including Visio and HP/QC

OTHER REQUIREMENTS, IF ANY

Compliance with Chevron's mandatory training

Resume format expectations: The manager's expectation is that the resumes are reflective of previous experience with the deliverables and that the resumes state that they have experience with the mandatory requirements.
